

Dec 1999

Dear Friends,

Greetings and Merry Christmas!

We are excited about a new program in our computer system that will allow us to receipt our contributors on a monthly basis. We hope this will make it easier for you.

The Lord has blessed tremendously in 1999 by providing the funds for two new houses that will have walkout basements. When the basements are completed, this will give us four new homes for missionaries. One unit is completed and the Brunsons (missionaries to Turkey) have moved in. We anticipate completion of the second unit sometime in February.

We have about \$17,000.00 towards the Isley House and would like to have this home completed this next year. This will give us a total of nine homes on the SMH property!

Our general operating expenses for SMH runs about \$5,000.00 per month. The past few months, our general fund income has been down. Would you prayerfully consider a special one-time gift that will enable us to finish the year in the black? With the addition of new houses, our proposed budget will increase by about 10% over last year.

Thank you again for your love and support. We look forward to what God is going to do next year within Siloam Missionary Homes.

Because of Christ,

Larry George
President/Director
